

Innovator Training Program

Are you working in the aged care sector and have a problem in your workplace? Would you like to access FREE training and support to find a solution?

The **Innovator Training Program** (ITP) provides tools and skills to use the best available evidence to solve a problem identified in your workplace.

Dedicated training supports participants to implement an evidence-based solution that is appropriate for local setting and organisations.

Participants begin the training with a problem they have identified, and leave with a solution, a project plan, and a pitch to present to stakeholders.

Learn alongside a cohort of peers who work in the sector, guided by ARIIA's specialist team.

The training provides transferable skills and knowledge to:

- Understand the components of a problem.
- Find best-practice evidence to solve the problem.
- Manage change and innovation projects within the workplace.
- Measure if the change has made a difference.

The free training is facilitated online via self-directed learning modules and workshops supported by expert ARIIA staff, who provide participants with tailored support alongside their dedicated Sponsor from the workplace.

Make brave changes to aged care and services

For Managers

How will the ITP benefit my staff and organisation?

Empower your staff to think differently about how they critically assess and solve problems, and equip them with skills to embed evidence-based solutions.

The **free** ITP provides an ideal opportunity to engage and develop your staff professionally, while solving organisational problems.

Gaining new skills and having access to ongoing learning opportunities is a way to retain and build a successful team.

You will receive financial support of \$2,000 per participant to contribute to staffing costs, and multiple staff can apply.

Participants are eligible to progress to ARIIA's Aged Care Partnering Program if the project is scalable and has broad sector relevance, where they will be supported to submit an ARIIA Grant application.

For Individuals

Why should I apply for the ITP?

If you are passionate about improving aged care and services and want to learn new skills to make a difference, then the Innovator Training Program is for you.

The training is 100% online, where you will learn alongside a cohort of peers who work in the aged care sector across Australia.

After the training, you will receive a certificate of completion. Your ARIIA journey then continues with the Innovator Network, where you can stay connected and supported, and access **free** continuous learning opportunities as part of the ARIIA Alumni.

How to Apply

Multiple training rounds will be offered throughout the year. There are a range of delivery schedules that spread the 110 training hours across three, five or ten weeks, so you can choose the option that's right for you.
